

DOG GUARD
OUT OF SIGHT FENCING

Black Friday on Monday!

To stir up some excitement for the upcoming holiday season, and since we are not open on Black Friday, we will be holding a two day sale following Thanksgiving Weekend.

The sale will begin Monday, November 28 and will run through Tuesday, November 29 at 3:00 PM EST. We will be honoring a BUY FIVE GET ONE FREE deal on the equipment shown below.

Additionally, the dealer who places the largest order will be given a transmitter and receiver kit of their choice at no charge!

T4 Transmitters

DGSP - when purchased with T4 transmitters, you can purchase five at the discounted price of \$25/ DGSP and get one free

Happy Thanksgiving to you and your loved ones from all of us at Dog Guard Headquarters!

AC Adaptor Notice

The vendor from which we purchased the new style AC adaptors did not follow the correct specs we sent them when we placed the order. Instead of sending units with an appropriate output of 12V AC, they sent us 12V DC.

It has been found that these adaptors will work fine on smaller sized jobs (1000 feet or less) but that

**DG-RT2
Room
Transmitters**

DG-9XT Receivers

DG-5 Receivers

DG-M4 Receivers

they may cause difficulty in getting a proper range on the larger systems.

We have placed an order with a different vendor and are doing our best to get replacements ASAP.

In the meantime, for large installs a substitute AC adaptor can be purchased at Radio Shack. Dog Guard headquarters is drafting a reimbursement policy and will advise you shortly. Save your receipts!

The correct AC adaptor specs are:

Input:

120V AC, 60 Hz, 15W

Output:

12V AC, 800-830 mA

We apologize for any inconvenience this may have caused.
